Hello Ron,
Please save this to SEMS for Smokey Mountain Smelters.
Thank you,
Scott

Subject: FW: Sms job trailer break in

Scott,

FYI. What a PIA!

Arnie

Arnie,

After getting the drillers up and running today I checked the job trailer, to discover a break in.

It doesnt look like anything was taken, but a rock was thrown through the window, and the door was left hanging open. Kids or homeless looking for a warm place to sleep are, in my opinion the most likely suspects. I will call the police and file a report when I have a moment to do so, and then contact corporate regarding how to proceed from there. Let me know if you require anything else.

Thanks,
Matt
